

9.48.040 Scaffolds or ladders

9.48.040 – Scaffolds or ladders

Any scaffolds or ladders placed in such a position that they overhang or can fall onto any public street, alley or other public place in the city, shall be firmly and properly constructed and safeguarded; and it is unlawful to place or leave any tool or article on any such place in such a manner that the same can fall into any such street, sidewalk, alley or other public place from a greater height than four feet.

(Prior code : § 28.022)
